FACILITY STAFF INTERVIEWED (NAME, TITLE, TELEPHONE):			

JUVENILE FACILITY HEALTH INSPECTION

Juvenile Halls, Special Purpose Juvenile Halls and Camps

INSTRUCTIONS

Authority for the annual health inspections is in Health and Safety Code Section 101045 (formerly Section 459). Items in the attached checklist are in the Title 15 of the California Code of Regulations ("Minimum Standards for Juvenile Facilities") and Division 22, Health and Safety Code [California Uniform Retail Food Facilities Law (CURFFL)]. Where applicable, a code section reference follows each standard.

The checklist is divided into three sections: environmental, nutritional and medical/mental health. All sections are required for a complete health inspection. The checklist is intended as an inspection tool and the regulation may not be quoted in entirety. To more fully understand what is required, it is necessary to read the regulation as written in the CCR and associated guidelines. Although its use is optional, Attachment 1 relates to CURFFL and may be useful in the environmental evaluation. Attachment 2 summarizes regulation applicability to each type of juvenile facility. Please note that the term "camp" now includes "a juvenile camp, ranch, forestry camp or boot camp established in accordance with Section 880 of the Welfare and Institutions Code..." [Title 15, Section 1302(g)].

Checklist columns identify compliance as "Yes," "No" or "N/A" (not applicable). When inspection staff assess environmental, nutritional or medical/mental health areas and "check" a column to indicate that a facility is out of compliance with all or part of a regulation, or indicate that all or part of a regulation is not applicable to a facility, a brief explanation is required in the comments section. This explanation is critical. It assists both the Board of Corrections and facility staff to understand the rationale for non-compliance and what needs to be corrected. Please note that wherever policy and procedures are required, it is implied that in order for the facility to be in full compliance with the regulation that these policy and procedures must also be implemented.

In some instances, local health officers elect to inspect for issues that are not covered by this inspection checklist. If this is done, these additional issues must be clearly delineated on a separate sheet to maintain their distinction from Title 15 requirements for juvenile facilities. For information purposes, this additional sheet should be attached and submitted to the Board of Corrections with the report.

The checklist and Title 15 regulations will be available on the BOC web site on June 1, 1997 (<http://www.bdcorr.ca.gov>). We encourage you to download the checklist from the web site. **Please do not modify the checklist in any way. Contact the Board of Corrections if you encounter difficulties in using the disk.**

If you have questions regarding the format for these inspections or wish to discuss a regulation or application to a particular facility, call the Board of Corrections field representative assigned to your county. In addition to the distribution specified in Section 101045 of the Health and Safety Code, copies of the entire inspection report must be forwarded to the designated facility administrator and to the Board of Corrections at the following address:

Board of Corrections
Corrections Standards and Services Division
600 Bercut Drive
Sacramento, California 95814
